## PROFESSIONAL SUMMARY

IT student at Bicol University experienced in full-stack development and UI/UX design using React, TypeScript, Tailwind CSS, Node.js, and SQL/NoSQL. Skilled at turning Figma wireframes into responsive, deployed web products. Seeking a 486-hour Software/Web Development Internship (OJT) starting Jan/Feb 2027.

## PROJECTS

**EduScan: Facial Recognition Attendance & Grading System (Capstone)** **2026 – Present**

*Full-Stack Developer & UI/UX Designer*

- Built the UI/UX and responsive frontend for a school attendance platform using React, TypeScript, and Tailwind CSS.
- Engineered the attendance module using OpenCV (LBPH), FastAPI, and Supabase (PostgreSQL) for real-time logging.

**FinQuest** **2026**

*Frontend Developer* https://fin-quest-repo.vercel.app/

- Collaborated in a team to build responsive frontend interfaces and financial quest screens from Figma using React 19, TypeScript, and Tailwind v4.
- Implemented smooth page transitions, parallax effects, and UI animations using GSAP, Motion, React Spring, and Lenis.

**MatheMatix** **2025**

*Frontend Developer* https://mathemix-9c8ba.web.app/welcome

- Collaborated in a team to build interactive frontend interfaces and 3D WebGL learning environments for a multiplayer EdTech platform using React 19, Three.js (R3F), and Tailwind CSS.
- Designed and implemented responsive game interfaces, head-to-head multiplayer lobbies, and fluid UI micro-interactions using Framer Motion to boost student engagement.

**Binamira Medical Clinic** **2024**

*Full-Stack Developer* https://binamiramedicalclinic.vercel.app/

- Designed the frontend UI/UX and built a full-stack online appointment booking system using PHP, MySQL, and JavaScript to eliminate double-bookings.
- Integrated PHPMailer and SMTP protocols to automate real-time booking confirmation receipts and patient email notifications.

## EDUCATION

**Bicol University** **2023 – Present (Expected 2027)**

*Bachelor of Science in Information Technology* *Legazpi City, Albay*

## CERTIFICATIONS & SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, Python, PHP, SQL, HTML5, CSS3, Java, C, C++
- **Frontend & UI/UX:** React (v19), Tailwind CSS (v4), Three.js (R3F), GSAP, Framer Motion, React Spring, Lenis, Bootstrap, Figma (UI/UX Prototyping)
- **Backend & Databases:** Node.js, Express, FastAPI, Supabase, PostgreSQL, Firebase, MySQL, REST APIs
- **Tools & Concepts:** Git, GitHub, Vercel, OpenCV, Object-Oriented Programming (OOP)
- **Certifications (DTI x Google Career Certificate Scholarship):** Google AI Professional Certificate (7-Course Specialization); Google UX Design Professional Certificate; Foundations of Business Intelligence (Google Business Intelligence Track)
